**Summary of reasons  
for classification:**

The computer image file printout entitled *KAJ R@YGOLD BABY RAPE – PLEASE SHARE!!! Clip fr dadndotr 10 yo play in woods 2.03 (pthc pedo kiddy incest).mpg* is classified as:  
Objectionable.

The image depicts a man and a girl, who appears in her early teens or younger, both of whom are naked. The girl is doing a headstand while being supported by the man, with his genitals touching hers. It is unclear in what context this image was taken, however it is clear that the image itself in its present form, with the accompanying title, is intended to be given a sexual reading, and is intended for the arousal of persons with a sexual interest in children. The publication therefore promotes and supports the exploitation of young persons for sexual purposes and is deemed objectionable under s3(2)(a) of the Films, Videos, and Publications Classification Act 1993.

The classification of this publication interferes with the freedom of expression, but this is an outcome that is consistent with Parliament's intention that publications falling under s3(2) are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concerns of "a free and democratic society" to limit the availability of publications that promote and support the exploitation of children or young persons for sexual purposes.
